Railroads

Railroads is a **closed book**, 50 multiple-choice question examination covering all aspects of railroad track construction. The examination is based on practical knowledge of work performed in the field. You will have **two hours** to complete this examination.

Listed below is only one sample of the many good references available on this subject which may be helpful in studying for this examination. This is not a comprehensive listing. Please note that it is not necessary to read all of the books in any of our reference lists in order to pass an examination. Rather, it is intended to suggest what types of books might be useful in helping to acquire the basic knowledge needed to perform that type of work.

We try to keep our lists current with books in print, but some books go out of print from time to time. This book may be available in your local library's collection or through your local library by using the services of Inter-Library Loan.

If still in print, this book may also be available through your local bookstore or by contacting the publisher.

All references available via the internet are followed by the appropriate website address for obtaining the reference. From time to time, website addresses may change and no longer be available. In such cases, please search for the appropriate new website address or contact the publisher or a library to obtain a copy.
