Service for the Construction Industry and General Public

Baton Rouge -- The Louisiana State Licensing Board for Contractors (LSLBC) is here to serve. Professionalism and integrity of the construction industry and the well-being of the general public are the purposes of this agency. We are here to help and assist both the contractors and citizens of Louisiana.

As a governmental agency and regulatory body, our laws, rules and regulations (RS 37:2150-2192) are written to define the guidelines of the contractor licensing laws of Louisiana. Many times there may be confusion or misunderstanding for a contractor, consumer, or project awarding authority. If you have any questions or need assistance go to our website at www.lacontractor.org . Helpful information for frequently asked questions, applications for licensing, verification of contractor licensure, complaints for unlicensed activities, and who to contact at this office are provided.

The Licensing Board and staff are here for the compliance and enforcement of these laws. We want to help the contractor, general public, and law enforcement partnerships avoid unlicensed fraudulent activities that cause great harm and damages. Cheap prices and promises that sound too good to be true are clear warning signs. If we can be of service please let us know.

“Properly licensed and qualified contractors...It’s the Law!”
