Louisiana State Licensing Board for Contractors

LSLBC

Types of Work Regulated by both the Louisiana State Licensing Board for Contractors and the Louisiana State Fire Marshal

## Types of Work Regulated by both the Louisiana State Licensing Board for Contractors and the Louisiana State Fire Marshal

A contractor who performs Telecommunications and related types of work when the cost of the undertaking exceeds the sum of \$10,000 must hold a license with the Louisiana State Licensing Board for Contractors. Contractors who perform the specialty classifications shown below are required to hold a separate license with the Louisiana State Fire Marshal, except when the contractors hold the Electrical Work (Statewide) license classification with this Board.

Contractors holding the Mechanical Work license with this Board may install piping for fire sprinkler work or fire suppression systems without additional licensing from the State Fire Marshal.

Contractors holding Residential Construction or Building Construction may install or remove complete mechanical lock sets in a house or building they are building without a separate classification or a Fire Marshal license endorsement.

In an effort to reduce duplication between the Louisiana State Licensing Board for Contractors and the Louisiana State Fire Marshal's Office, the following classifications are available from this Board for specialty contractors.

**NOTE:** Contractors applying for any of these specialty classifications must show proof that they hold a license with the State Fire Marshal for such work. However, licensed Electrical Work contractors with this Board do not need the classifications listed below.

---

Bank Auxiliary Systems  
Bank Locking Systems  
Closed Circuit TV  
Detention Locks  
Doors, Door Frames, Door Hardware,  
and Operable Walls  
Engineered Fire Suppression Systems  
Fire Alarm (Non-Required)  
Fire Alarms  
Fire Sprinkler Work

Fixed Fire Suppression  
Gates  
Household Fire Alarms  
Kitchen Fire Suppression  
Life Safety Locksmith  
Pre-engineered Fire Suppression  
Systems  
Security  
Special Locking Systems  
Telecommunications

### *Examples of work that may be performed under the classification of 7-174 Telecommunications:*

Audio-Visual Systems  
Fiber Optic Cabling  
Cable TV  
Antennas  
Telephone and Data Wiring  
Security Monitoring Systems

Fire Alarms  
Door Access Systems  
Closed Circuit TV  
Electronic Data Systems  
Gate Opening Controls

## LICENSING AND ENDORSEMENT REQUIREMENTS

Classification Code	License Classification	Fire Marshal License Endorsement
7-174	Telecommunications	Fire Alarms and Security and Locksmith
7-590	Telecommunications (Excluding Property Protection and Life Safety Systems)	Does not require a Fire Marshal License Endorsement
7-571	Bank Auxiliary Systems	Bank Auxiliary Systems
7-572	Bank Locking Systems	Bank Locking
7-573	Closed Circuit TV	Closed Circuit Television; or Security; or Locksmith
7-574	Detention Locks	Detention Locking; or Locksmith; or Security
7-272	Doors, Door Frames, Door Hardware, and Operable Walls	Door Hardware
7-576	Engineered Fire Suppression Systems	Fixed Fire Suppression; or Engineered Fire Suppression Systems
7-577	Fire Alarms	Fire Alarms
7-595	Fire Alarm (Non-Required)	Fire Alarm; or Fire Alarm (Non-Required)
7-18	Fire Sprinkler Work	Fire Sprinkler
7-578	Fire Suppression	Fixed Fire Suppression
7-579	Gates	Gates; or Locksmith; or Security
7-580	Household Fire Alarms	Household Fire Alarms; or Fire Alarms
7-582	Kitchen Fire Suppression	Kitchen Fire Suppression; or Fixed Fire Suppression
7-583	Life Safety	Requires Fire Sprinkler and Fixed Fire Suppression and Fire Alarms
7-584	Locksmith	Locksmith
7-586	Pre-Engineered Fire Suppression Systems	Pre-Engineered Fixed Fire Suppression Systems or Fixed Fire Suppression Systems
7-588	Security	Security
7-589	Special Locking Systems	Special Locking Systems
