FOREWORD

This document presents the Louisiana Contractors Licensing Laws and Rules, current through the 2020 Regular Legislative Session.

A Commercial license is required for commercial projects of fifty thousand dollars ($50,000) or more; one dollar ($1) or more for hazardous materials; or in excess of ten thousand dollars ($10,000) for Plumbing, Electrical or Mechanical. The total value of the project includes the cost of all labor and materials.

A Residential license is required for residential building contractors when the cost of the undertaking exceeds seventy-five thousand dollars ($75,000). Residential subcontractors who bid or perform work in one of the residential specialties (Pile Driving; Foundations; Framing; Roofing; Masonry/Stucco; or Swimming Pools) must have a valid residential license for that specialty when the work exceeds seventy-five hundred dollars ($7,500), including all labor and materials. Residential contractors are required to submit certificates evidencing workers’ compensation coverage in compliance with Title 23 of the Louisiana Revised Statutes of 1950, and general liability insurance in a minimum amount of one hundred thousand dollars ($100,000) during the application and renewal process.

A Mold Remediation license is required for mold remediation projects of one dollar ($1) or more. Mold contractors are required to submit certificates evidencing workers’ compensation coverage in compliance with Title 23 of the Louisiana Revised Statutes of 1950, and general liability insurance in a minimum amount of fifty thousand dollars ($50,000) during the application and renewal process.

Home improvement contractors are required to register with the Board in order to perform home improvement work when the total project value (including labor and materials) exceeds seventy-five hundred dollars ($7,500), but does not exceed seventy-five thousand dollars ($75,000). Contractors who hold valid commercial or residential licenses with the Board are exempt from this registration requirement. Home improvement contractors are required to submit certificates evidencing workers’ compensation coverage in compliance with Title 23 of the Louisiana Revised Statutes of 1950 and general liability insurance in a minimum amount of one hundred thousand dollars ($100,000) during the application and renewal process. Home improvement contractors performing work in excess of seventy-five thousand dollars ($75,000), including all labor and materials, are required to be licensed as a residential building contractor.

It is the duty of the awarding authority to ascertain if a contractor is duly licensed under the provisions of R.S. 37:2150-2192 before permitting the contractor to obtain plans and specifications, submit a bid or offer to construct a commercial project. Licenses of active contractors can be verified in real-time by visiting the website of the board at www.lacontractor.org.

§2156. Unexpired licenses; fees; renewals

A. Licenses and renewals issued pursuant to the provisions of this Chapter shall expire on the anniversary of the date on which the license was originally issued. Licensees shall elect upon renewal one-, two-, or three-year license renewal terms, and licenses may be issued by the board on a multiple-year basis, not to exceed a three-year renewal term for any license. The license becomes invalid on the last day of the term for which it was issued unless renewed; however, after a license has expired, the person to whom the license was issued shall have fifteen days following the expiration date to file an application for the renewal of the license without the payment of a penalty and without further examination. Any person who makes an application for the renewal of a license after fifteen days following the expiration date of the license may, at the discretion of the board, have his license renewed after paying the required license fees and a penalty, not exceeding the sum of fifty dollars, that the board may impose. New applicants for licensing may elect upon application the renewal term of their license.

B. If a license is not renewed within a period of one year from the date of its expiration, any application for renewal shall be considered and treated as a new application.
C. (2) The board may assess an additional surcharge of no more than four hundred dollars in connection with the application for and issuance of a contractor's license to a contractor not domiciled in the state of Louisiana, to be utilized to defray the additional cost of the investigation of the application of the non-Louisiana contractor, including references supplied by the contractor, work history supplied by the work contractor, and other pertinent information required by the board in connection with an application for a contractor's license.

(3)(a) The board shall assess on each license renewal issued to a contractor an additional fee of one hundred dollars per year to be dedicated and allocated as provided in this Paragraph to any public university in this state or any community college school of construction management or construction technology in this state that is accredited by either the American Council for Construction Education or the Accreditation Board for Engineering and Technology. The board shall include on each license renewal form issued to a contractor an optional election whereby the contractor may choose to not participate in the remission of the additional one hundred dollar dedication fee.

(b) Each January, each accredited public university or community college school of construction management or construction technology shall report to the board the number of graduates from its school of construction management or construction technology from the previous calendar year.

(c) Any and all funds collected pursuant to this Paragraph shall be disbursed to the accredited public university or community college schools of construction management or construction technology by August first of each year upon completion of the annual audit of the board. The funds shall be used by the accredited public university or community college schools of construction management or construction technology solely for the benefit of their program and the expenditure of such funds shall be approved by the industry advisory council or board for the program. (2) The purpose of this Subsection is to preempt local, municipal, or parish regulatory examination authority for statewide-licensed mechanical, plumbing, or electrical contractors bidding and performing work in multiple jurisdictions. This preemption shall further exclude the employees of statewide-licensed electrical and mechanical contractors from local, municipal, or parish regulatory examination or certification authority as a condition to performing work for the statewide-licensed electrical or mechanical contractor.

D. Upon proper showing by the board that a person or firm has engaged or is engaged in any activity, conduct, or practice prohibited by this Chapter, the courts shall issue a temporary restraining order restraining the person or firm from engaging in the unlawful activity, conduct, or practice pending the hearing on a preliminary injunction. In due course, a permanent injunction shall be issued after a hearing, commanding the cessation of the unlawful activity, conduct, or practice without the board having to give bond. A temporary restraining order, preliminary injunction, or permanent injunction issued pursuant to the provisions of this Section shall not be subject to being released upon bond.

E. In the suit for an injunction, the board may demand of the defendant a penalty as provided in Subsection A of this Section. A judgment for penalty, attorney fees, and costs may be rendered in the same judgment in which the injunction is made absolute. All architects, engineers, and awarding authorities shall place in their bid specifications the requirement that a contractor shall certify that he holds an active license under the provisions of this Chapter by displaying his license number on the bid envelope. In the case of an electronic bid proposal, a contractor may submit an authentic digital signature on the electronic bid proposal accompanied by the contractor's license number in order to meet the requirements of this Paragraph. Except as otherwise provided herein, if the bid does not display the contractor's license number on the bid envelope, the bid shall be automatically rejected, shall be returned to the bidder marked "Rejected", and shall not be read aloud.

(2) Any bid that does not require the contractor to hold an active license shall state the exemption on the bid envelope and shall be treated as a lawful bid for the purpose of this Section.

B. Where bids are to be received or forms furnished by the awarding authority, no proposal forms or specifications shall be issued to anyone except a licensed contractor who holds an active license or his authorized representatives. In no event shall proposal forms be issued later than twenty-four hours prior to the hour and date set for receiving proposals.

C. The architect, engineer, or awarding authority shall classify public projects. Once the project is classified, any interested person may object by sending a certified letter to both the board and to the architect, engineer, or awarding authority stating with particularity the reasons for the objection. The objection shall be received by the board and by the architect, engineer, or awarding authority at least ten working days prior to the date on which bids are to be opened and then submitted to a committee for determination. The chairman of the board shall appoint the committee which shall consist of board members. The committee may approve the project classification or add an additional classification by vote of a majority of the members of the committee. The matter shall be resolved and the board shall notify the architect, engineer, and awarding authority no less than five days prior to the time when bids are to be opened, unless all parties agree that a delay will not cause harm to others.
D.(1) Any awarding authority or its agent who violates the provisions of this Section shall be deemed guilty of a misdemeanor and, upon conviction, be punished by a fine of not less than one hundred dollars or more than two hundred dollars or imprisonment in the parish jail for not less than thirty days nor more than sixty days, or both. Any fine and imprisonment are at the discretion of the court.

(2) In addition, the board may, after notice and a hearing, impose a fine upon any awarding authority or its agent who intentionally violates the provisions of this Section. The board may not impose any fine as authorized by this Paragraph on the state, its agencies, boards, or commissions, or any political subdivision thereof.

C. In determining whether to impose an administrative penalty, the administrator shall consider the seriousness of the violation, the effect of the violation on the complainant, any good faith on the part of the home improvement contractor, and the home improvement contractor’s history of previous violations.
